## AGRINE - Filter treat

### **TREATMENT AND DOSING REQUIREMENTS**

AGRINE Filter treat effectively controls bacteria, virus and fungal slimes in filters.

### **Application**

Backwash the sand filter as normal. Shut off filter and open filter lid. Apply 2lt of AGRINE Filter treat (per 48" unit). Wait 24 hours and backwash. Repeat if necessary.

### **Toediening**

Die sandfilter word op die normale manier teruggespoel. Sluit die filter af en maak die filter deksel oop. Dien 2lt AGRINE "Filter treat" toe (per 48" eenheid). Wag 24 uur en doen weer 'n terugspoel aksie. Herhaal indien nodig.

### **AGRINE - Filter treat**
